

**HEADWATER**  
LEARNING SOLUTIONS

**We drive lasting change in our schools, our communities, and our education system.**

## OUR VISION

To be a catalyst for learning excellence and innovation, Headwater Learning Solutions builds sustainable solutions to complex education problems.

## OUR MANDATE

To partner with diverse stakeholders to prepare youth to be internationally competitive in an ever-evolving environment. Headwater Learning Solutions has over 30 years of experience building sustainable and scalable solutions for communities in the United States and Canada, including Indigenous Nations in Alberta and Saskatchewan.

**We believe organizations' future success, based upon the learners they serve, is directly related to the degree in which they innovate over the next 10-20 years.**

*Dr. Greg Bass*  
PRESIDENT & CEO

## OUR GOALS

### EQUITY AND INNOVATION IN EDUCATION

Success for some is not enough; success for all is our mandate.

### TRANSFORMING THE FUTURE OF LEARNING

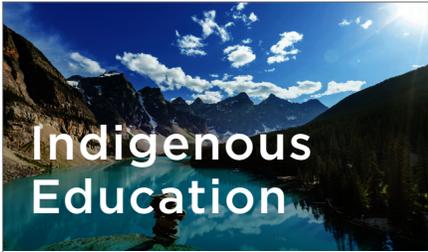

Aligning the school experience to how we live, learn, and work.

### TARGETING TRANSFORMATIVE CHANGE

Building solutions that are systemic, strategic, and sustainable.

# OUR WORK

## Indigenous Education

With the goal to improve education outcomes for Indigenous youth on a national scale, Headwater Learning Solutions' Indigenous Education Initiative seeks to positively impact thousands of children.

## The Innovation Alliance

The Innovation Alliance brings multidisciplinary groups of people together to drive new approaches in education. It is also focused on redesigning and launching compelling ideas that have not been fully realized.

## The Future of Learning

Headwater Learning Solutions partners with communities to reimagine and transform schools and school systems to better realize their vision of what education could be. We conduct comprehensive reviews to design customized and actionable paths to achieve change.

# OUR BELIEFS

We are all learners first, continuously redefining what is possible.

The skills learners need to thrive in and lead the world of tomorrow are constantly evolving.

Educational leadership to transform teaching practices and build capacity is critical to improving outcomes for underserved learners.

Innovation is central to positively impacting the future of learning and education.

Every learning community is unique.

Authentic relationships and forward-thinking collaborations to amplify our impact.
